

## **SWIMMING POOLS**

**You must submit a plot plan, of the property showing the location of the home, any other buildings, the location of the septic system and well.**

**If pool is to be located behind the house, the pool must be a minimum of (5) feet from any side or rear property line and is recommended to be (10) feet from the principal structure.**

**If pool is to be located in the side yard, the pool must be a minimum of (5) feet from any side property line and a minimum of (50) feet from the front property line and is recommended to be (10) feet from the principal structure.**

**Once excavation begins for an in-ground pool, the entire area must be enclosed by a security fence.**

**All in-ground pools must have a minimum (4') high fence with a self-closing/self locking gate.**

**Decks on above ground pools require hand rails & self closing/ self latching gates.**

**All electrical work must be inspected by an Electrical Underwriter- Please see attached**

**Please call the Schodack Building Department once the job is totally completed, so we may schedule a final inspection.**

**Pool should not be used until all work is completed and a final inspection has been done.**
