Short Environmental Assessment Form Part 1 - Project Information

Instructions for Completing

Part I - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information				
Stewart's Strops Corp.				
Name of Action or Project:				
Stewart's Relocation				
Project Location (describe, and attach a location map):				
1540 Columbia Tumpike				
Brief Description of Proposed Action:			***	
Stewart's will raze: the existing multi-tenant building and neighboring automobi (convenience store) with self-service gasoline.	le repair shop for	the redevelopment of a	new Stewart's	Shop
Name of Applicant or Sponsor:	Tolon	hone		<u>.</u>

Short Environmental Assessment Form Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	. Will the proposed action create a material conflict with an adopted land use plan or zoning	No, or small impact may occur	Moderate to large impact may occur
	teanstanes.		
2	proposed actions result in a change at the tise or intensity of tise of land?		
3.	The state of countries of drawing of the existing community.	U	
4.	establishment of a Critical Environmental Area (CEA)?		
5.	Will the proposed action result in an adverse change in the existing level of truffic or affect existing infrastructure for mass transit, biking or walkway?		
6.	reasonably available energy conservation or renewable energy opportunities?	V	
₹	Will the proposed action impact existing: a. public / private water supplies?	U	
	b. public / private wastewater treatment wilities?		. 🔲
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	W	
10.	Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	V	
LI.	Will the proposed action create a hazard to environmental resources or human health?	1	

Part 1 / Question 7 [Critical Environmental Area]	No
Part 1 / Question 12a [National Register of Historic Places]	, No.
Part 1 / Question 12b [Archeological Sites]	Yes
Part 1 / Question 13a [Wetlands or Other Regulated Waterbodies]	:No
Part 1 / Question 15 [Threatened or Endangered Animal]	.No
Part 1 / Question 16 [100 Year Flood Plain]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
Part 1 / Question 20 [Remediation Site]	;No

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and considerive impacts.

Check this box if you have determined, based on the inforthat the proposed action may result in one or more poter environmental impact statement is required.	mation and analysis above, and any supporting documentation, it is also before a significant adverse impacts and an	
Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
