CONTRACT ADDENDUM NO. 2018007 – 01
(Battisti Water District No. 10)

DATED: October 8, 2021

TO
Agreement for Professional Services
(Original agreement date: January 3, 2011)

The original Agreement, between the Town of Schodack, Rensselaer County, New York, the OWNER and Laberge Group, the ENGINEER is hereby amended as follows:

The contract shall be amended for the provision of Professional Services related to the implementation of the New York Water Grant award for professional engineering and related services for the Battisti Water District No. 10 project. This amendment clarifies scope and fee for this project to be in conformance with the submitted grant budget. The following scope and fee shall apply to this project with all other provisions of the original agreement continuing in effect.

SCOPE OF SERVICES

Survey

- a. Prepare mapping that will define planimetric and topographic features as needed in the project area(s).
- b. The location of underground utilities will be shown from field mark-outs and from information provided by other utilities.
- c. Property lines, parcel numbers and ownership information will be taken from tax mapping and county tax records.
- d. Prepare base mapping and perform field edits of structures, improvements and utilities.

Soils and Wetland Investigations

- a. Perform a subsurface condition investigation by completing soil probes and borings for use in project planning, design, and bidding phases of the project. It is estimated that probes will be advanced at 200' intervals along the proposed water main route.
- b. Perform a wetland delineation of federal and state wetlands as necessary for planning and design activities.
- c. It is assumed that work zone traffic control will be performed by a subcontractor as needed.

Design and Permitting

- a. Preliminary layout of improvements.
- b. Review design issues and alternatives with the Town.
- c. Preparation of preliminary opinion of probable construction costs.
- d. Provide completed plan and detail sheets.
- e. Provide traffic maintenance & protection plan.
- f. Erosion and Sediment control plans and details.
- g. Provide updated preliminary opinion of probable construction cost.
- h. Submit final plans for permits and approvals to the following agencies if required:
 - i. Environmental Facilities Corporation
 - ii. NYS Department of Health
 - iii. NYS Department of Transportation
 - iv. Rensselaer County Highway Department
- i. Prepare contract documents ready for bidding.
- j. Include NYSEFC funding program required documents
